

1. Install the software  **AlcoholTesterUploader.en-US.Installer.msi** , click next to finish the installation.

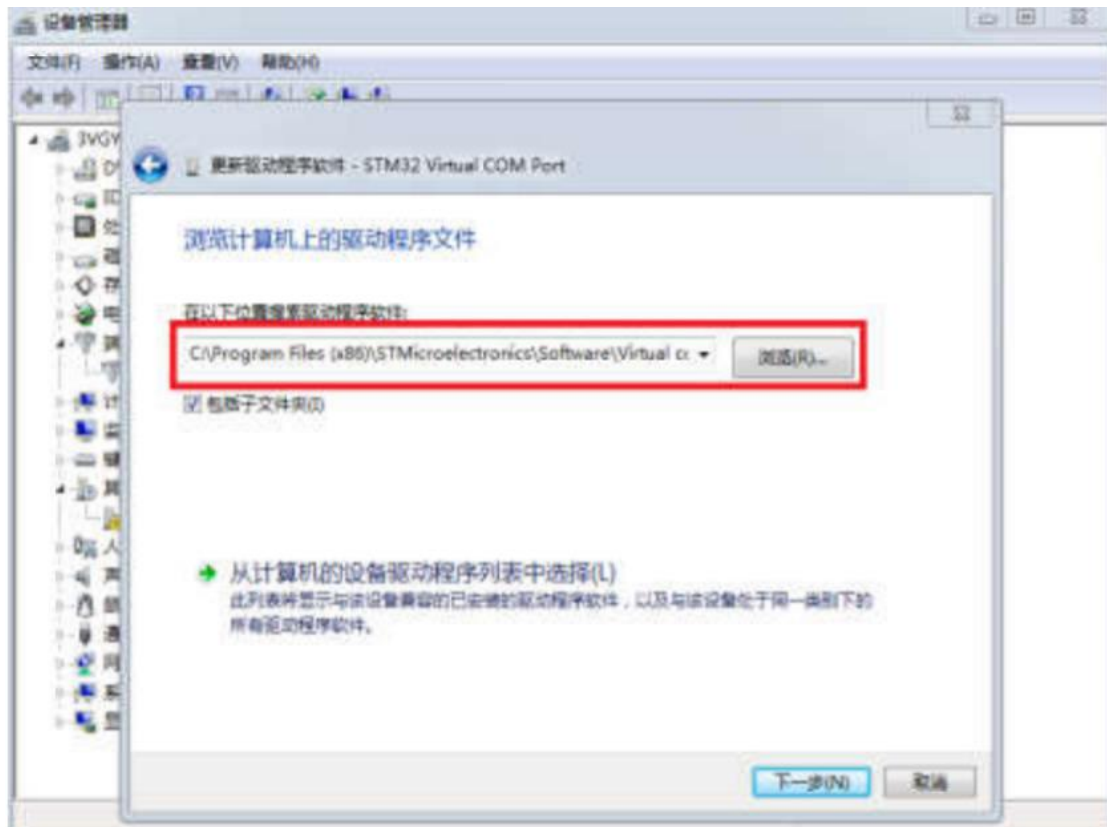

2. Install the driver  **Driver VCP_V1.4.0_Setup.exe** click next to finish it.

3. If the driver auto installation failed, open the "Device manager" to find other devices to install the driver by hand.

After finished the installation the software and drive, find the icon

Password: 888888

Then you can do the data uploading follow my video guide.

Thank you!
